Regal Distinction

Our smaller decorative glass collections are for people who like just a touch of class. We offer these exquisite lite kits in half rounds, privacy view and the slim lite series. The half round offers a beautiful glow of light from the top of the door. The privacy view is a small rectangle which will add light to your entrance way and still keep your privacy intact. The slim lite is exactly what it sounds like: a narrow piece of clear or decorative glass. Make your choice and we will make your door, customized especially for you.
