(style 10 only)

TS 14  
(style 10 only)

TS 21  
(style 10 only)

The seven door styles shown here do not really fit into any specific category. They are traditional American styles which are in demand by many customers. With the Polaris® Ultra Steel "Custom Door" program, we wish to provide what the customer desires. These styles fit that bill. The door lites in this series are available in clear glass only and pricing for these styles are available in the pricing catalog.

\* All Traditional Series doors are available in either oakgrain or smooth steel.
